Professional Study Tool and Reliable Exam Practice Material

Exam : **000-958**

Title : Enterprise Storage
Technical Support V3

Vendors : IBM

Version : DEMO

NO.1 What are the main logical components in the DS8000?

- A. Volumes, extents, and file systems
- B. Volumes, extent pools, and arrays
- C. Virtual disk, managed disk, and LUNs
- D. Arrays, managed disk groups, and managed disks

Answer: A

NO.2 What should be included with an N7900 to ensure customers meet aggressive RPO and RTQ requirements?

- A. SnapRestore
- B. FlashOopy Manager
- C. Replication Manager
- D. Tivoli Storage Manager

Answer: A

NO.3 A customer has recently installed a SONAS system and now wants to set up backups to the virtual tape library (VTL) using their existing Symantec NetBackup data management application. The server running the NetBackup application has 1 GE connectivity, while a different server with 10 GE connectivity is used as the NDMP tape server.

Which options offers the least impact on the customer's current infrastructure?

- A. Set up a remote SONAS NDMP configuration
- B. Configure a three-way SONAS NDMP implementation
- C. Connect the SONAS directly to the VTL's fibre channel ports
- D. Install a dedicated 8 Gbps fiber channel switch for connectivity

Answer: B

NO.4 A customer is searching for high-end NAS products in the market looking for compression capability and is comparing N7950T to EMC VNX.

Which key difference should the technical specialist highlight to the customer?

- A. Only VNX deduplicates data.
- B. N7950T compresses data inline.
- C. N7950T needs extra space for compression.
- D. Both N7950T and EMC VNX compress data inline.

Answer: B

NO.5 A Business Partner has completed the sale of an XIV Gen3. What is the most important step to ensure customer satisfaction?

- A. Discuss delivery requirements with the customer
- B. Conduct a pre-install Technical Delivery Assessment
- C. Ensure the customer has prepared all necessary network cabling
- D. Ask the customer if they have power installed for the new system

Answer: D

NO.6 Disk Magic can be used to generate which report for an XIV Gen3?

- A. Effect of SSD usage
- B. Host protocol overhead
- C. Drive type recommendations
- D. Block workload useable capacity

Answer: A

NO.7 Where does the IBM Real-time Compression Appliance protect its software and configuration?

- A. Supplied USB device
- B. An external quorum disk
- C. Internal mirrored drives
- D. Battery protected memory cache

Answer: C

NO.8 A customer wants to better understand how much recovered storage space will be gained by implementing Real-time Compression (RTC) on their SAN Volume Controller (SVC). The customer has requested a test method which shows how much space savings could be realized.

Which method would the technical specialist use to show the customer RTC benefit on SVC?

- A. Compress a mirrored copy and compare to the source.
- B. Back a volume to tape and then use compression during the restore
- C. Insert a RTC compression appliance between the SVC and back-end storage
- D. Examine the managed disk group size after compressing the existing volume.

Answer: A

NO.9 A customer tells a technical specialist that EMC stated XIV has a double drive failure problem because XIV has a 180 drive RAID group.

What is the best response to this competitive statement?

- A. EMC has double drive failure issues as well.
- B. EMC deploys different drive types and sizes making their reliability issues much more complicated.
- C. EMC uses RAID protection. The high load on drives during RAID rebuilds, that cause dual drive failures, do not exist on XIV.
- D. EMC employs wide striping across many RAID groups, so they have the possibility of high data loss in the event of a dual drive failure too.

Answer: C

NO.10 When planning to use an SAN Volume Controller split cluster, why is it strongly recommended to

have a third site available?

- A. A third site is recommended to house the SSPC.
- B. A third site is recommended to house the managed disks.
- C. A third site is recommended to house the active quorum disk.
- D. A third site is recommended to house the quorum disk candidates.

Answer: C
